Basic Qualifications (Required Skills/Experience):

- 5 years minimum experience in CNC and conventional machining
- Set up and operate CNC Machines-HAAS Controls
- Experience operating Lathes or Mills
- Mill Machining experience preferred
- A certificate from an accredited trade school in machining or equivalent experience
- Specific knowledge of appropriate feeds, speed, and tooling for a wide range of materials
- Ability to prove out new NC file programs; Edit feeds and speeds; Extend or shorten tool extension as needed per machining conditions; Increase efficiency and/or to achieve surface finish requirements.

Preferred Qualifications (Desired Skills/Experience):

- CNC Machining: 3 years (Preferred)
- CNC milling machine: 3 years (Preferred)
- CNC lathe: 3 years (Preferred)
- CNC programming: 2 years (Preferred)
- Understanding of CNC operations

Benefits:

- 401K
- Health Insurance
- Dental
- Vision
- Life insurance

Salary Range: \$15.00 - \$25.00 per hour

Schedule: Monday-Thursday, 10 hr. shift

Location: Uvalde, TX

COVID-19 considerations:

- Facility is daily cleaned and sanitized. Employees are strongly encouraged to wear masks at work. Sanitizing stations throughout the facility.

Who is SkyWay?

The SkyWay Group is a small-mid size company located in south Texas that offers a variety of services for general aviation, specializing in aircraft maintenance, repair, and restoration. The Skyway Group is formed by:

- Skyway MRO (Piston and Turbine aircraft maintenance, repair, and overhaul)
- Skyway Manufacturing (FAA-PMA shop)
- Lancair International (Experimental Composite Aircraft)
- FlighTime (Charter flight brokerage and aircraft management)

This position is specifically for the development of new programs, aircraft modifications and STCs, which might require working with different entities within The SkyWay Group.
