

Improved Cable Set Order/Installation Form

Thank you for choosing the safe, secure Citation entry step upgrade from SkyWay.
The improved cables (per Service Letter SL-SI610-200) provide more robust cables with stronger attachment points and better flexibility. They are a direct replacement for all Citation 500/501, 550/551, S550, 560 and 525 series SkyStep installations.

Note: They are NOT applicable to the 510 series SkyStep.

Installation Information

As described in the detailed SkyStep installation instructions, adjust the forward and aft cables to carry equal loads. **Please Note:** The "Old Style Cables" cannot be paired with the "New Improved Cables."
